

Vaccination	
<input type="checkbox"/>	Provides protection against Distemper (D), Hepatitis (H), Parvovirus (P) and Kennel Cough (Bb/Pi). C5 at 15 months of age, then C3 every 3 years. Bb/Pi requires Annual booster.
Heartworm	
<input type="checkbox"/>	A preventative yearly injection ( <b>Proheart SR12</b> ) is given to Adult Dogs. Adult dogs who have missed prevention for more than two months or who have never had it will require a heartworm test prior to starting prevention.
Worming	
<input type="checkbox"/>	Adult dogs are wormed every 3 months using Milbemax All wormer.
Dietary recommendations	
<input type="checkbox"/>	Feed 1-2 times daily. A complete and balanced commercial dry Adult formula should be the basis of the diet. Around 50% of food by weight should be dry food, the rest is whatever you are happy to feed for 15 years.
<b><i>These foods are toxic to dogs: grapes, raisins, sultanas, macadamia nuts, chocolate, onions, garlic. Do not feed cooked bones. Mango, macadamia and avocado seeds can also cause gut obstruction.</i></b>	
Flea and Tick control	
All dogs should be searched daily for ticks. Paralysis cases occur all year round in Buderim.	
<input type="checkbox"/>	Our recommended products <ul style="list-style-type: none"> <li>• <b>Bravecto Spot On</b> applied every 6 months controls both ticks and fleas.</li> <li>• <b>Permethrin</b> sprayed daily will repel fleas, ticks and mosquitoes for allergic pets.</li> </ul>
Neutering	
<input type="checkbox"/>	Neutering (aka desexing) at 6 months of age helps prevent roaming and fighting. In females it significantly reduces the risk of mammary cancer and the unwanted attention of male dogs. In males, neutering will greatly reduce prostate problems. Neutering of both males and females will prevent unwanted puppies in the future.
Dental Hygiene	
<input type="checkbox"/>	Pet's need dental care, too! Chewing should be encouraged from a young age. Offer your dog <b>pigs ears, pig trotters</b> , raw bones and rawhides for optimum health of gums and teeth.

Pet Insurance	
<input type="checkbox"/>	We strongly recommend Pet Insurance to cover unexpected costs. We have brochures from different funds available, but we cannot by law, advise you on choosing a fund.
Identification and Registration	
<input type="checkbox"/>	A microchip is a permanent and indisputable identification system. Your dog can have the microchip implanted during any visit. Ask our staff for a demonstration of our microchip scanner.
<input type="checkbox"/>	Dog owners should register their dogs when they are three months of age or within: <ul style="list-style-type: none"> <li>• 14 days of acquiring the dog or</li> <li>• 28 days of becoming a new resident of the region.</li> </ul> Contact <i>Sunshine Coast Regional Council</i> to arrange for your pet to be registered. <ul style="list-style-type: none"> <li>• By telephone (07) 5475 7272 8.15 am - 5.00 pm Mon-Fri</li> </ul>
